To all LBN citizens

**Re: Tse Tzeli (Babine Fence)**

Please be advised:

1. A word of caution to Lake Babine Nation (LBN) members and guests that will be visiting the Babine Fence in the coming weeks. We have had a small grizzly at the fence for several weeks. This grizzly isn't afraid of people. **Please keep children and pets in the vehicle.** We will most likely have more grizzlies show up as more fish come and we want to keep people and the bears safe.
2. Also, the Babine fence is a working area, so please stay off the Fence structure. Our technicians are counting fish and can't be disturbed. The landing area (*near the white tent*) and the covered wood structures are the only area open to LBN citizens picking up fish.
3. Due to the hot weather, the fish are not moving through the fence as quickly as we would like. Please expect line ups and be patient as the fence is first come first serve. We will do our best to fill food fish orders as quickly as possible.

Thank you for your cooperation in making this a safe working environment.
